

SLIDE-IN PC MOUNT CONTACTS

- Reliable spring tension assure low contact resistance and dependable connection
- Symmetrical design allows these contacts to function both as a positive and negative contacts
- Economical and reliable contacts
- Designed for direct placement onto PCB, no wire leads required
- Unique spring tension adjusts to variations in battery length
- Stainless Steel contacts provide superior corrosion resistance

MATERIAL: .012 (.30) Stainless Steel
Operating Temperature: -50°F to 185°F (-45°C to 85°C)
